September 2004

Summary of County Agricultural Data

California's counties reported an increase of 6.0 percent in the value of their agricultural production for 2003. Twelve counties reported a value of production in excess of \$1.06 billion. Fresno County increased its agricultural production value by nearly 18 percent, surpassing the \$4.05 billion mark and continued as the leading county. Tulare County was second in value of production with \$3.29 billion, 2.9 percent above last year. Monterey's agricultural production also increased 16.2 percent to \$3.28 billion.

Notable Changes in County Ranks and State Totals:

Milk and Cream	Tulare increases their lead to nearly 26 percent of the State total
Grapes, All	Kern leads, followed closely by Fresno and Napa
Nursery Products	San Diego continues to lead with more than 19 percent of the total
Cattle and Calves	Tulare is number one, followed by Fresno and Imperial
Lettuce	Monterey is number one and growing
Almonds	Kern leads with more than 17 percent, followed by Stanislaus and Merced
Strawberries	Ventura and Monterey lead with more than half of the total
Oranges	Tulare leads with almost half of the total
Alfalfa Hay	Kern leads the way, followed by Imperial and Tulare
Flowers and Foliage	San Diego has more than half of the total
Cotton	Fresno still leads with nearly 38 percent, followed by Kings
Rice (Excluding Seed)	Colusa is number one with more than 25 percent
Broccoli	Monterey leads with almost half of the total
Tomatoes, Processing	Fresno leads and continues to grow
Salad Greens	Monterey dominates with more than 99 percent

Notes to the Agricultural Commissioners' Data

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. The County Agricultural Commissioners' Reports also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by the California Agricultural Statistics Service. The larger total value reported by the Agricultural Commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total value reported by the counties, including timber, is 1.4 percent more than the \$32.5 billion recorded in the "County Gross Value of Agricultural Production, by Commodity Group, 2002-2003" table on page 7. The totals, with and without timber, are shown in the "County Rank by Gross Value of Agricultural Production, 2002-2003" table on page 3.

California Timber Industry

California has more forest land than any state, except Alaska. Nearly two billion board feet (equivalent to 132,000 homes) of commercial lumber are produced from California's private and public timberlands each year, making the "Golden State" the third largest producer of wood products in the nation. California's abundant forests could provide nearly 100 percent of the state's demand for wood.

California's Leading Timber Counties, 2003

Timber Rank	County	Timber Volume (Million Bd. Ft.)	Total Agricultural Value (Including Timber)	Timber Value	Timber Percentage of Total Agricultural Value
1	Humboldt	383,675	262,818	142,830	54.3
2	Siskiyou	230,871	160,285	45,481	28.4
3	Mendocino	112,568	158,971	40,354	25.4
4	Shasta	122,351	81,949	27,731	33.8
5	Plumas	97,866	40,548	22,800	56.2

County Agricultural Commissioners' Reports

Copies of individual County Agricultural Commissioner Reports may be requested or obtained directly from each County Agricultural Commissioner's Office. For your convenience, a listing is included at the end of this report.

California Agricultural Statistics Service publications are available free-of-charge on the Internet at: <http://www.nass.usda.gov/ca>.
